DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species of the claimed invention:

Species I: Figures 1A-1B	Species XI: Figure 3C-3D
Species II: Figures 1C-1D	Species XII: Figure 5A
Species III: Figure 1E	Species XIII: Figure 5B
Species IV: Figure 1F	Species XIV: Figures 5C-5D
Species V: Figure 1G	Species XV: Figures 6A-6C
Species VI: Figure 1H	Species XVI: Figures 7A-7B
Species VII: Figure 1I	Species XVII: Figures 7C-7D
Species VIII: Figure 1J	Species XVIII: Figures 7E-7F
Species IX: Figures 2A-2B	Species XIX: Figure 8
Species X: Figures 3A-3B	Species XX: Figures 9-10B

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, Claims 1, 28, and 39 are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.
